

World has many continents and countries which are separated by their own borders.

People in different countries live in their societies, traditions, religions, cultures & ethics.

Internet is a Privilege to everybody but not a Right.

Everybody have their own values according to their tradition & history, we need to respect their values, their sentiments as part of global network.

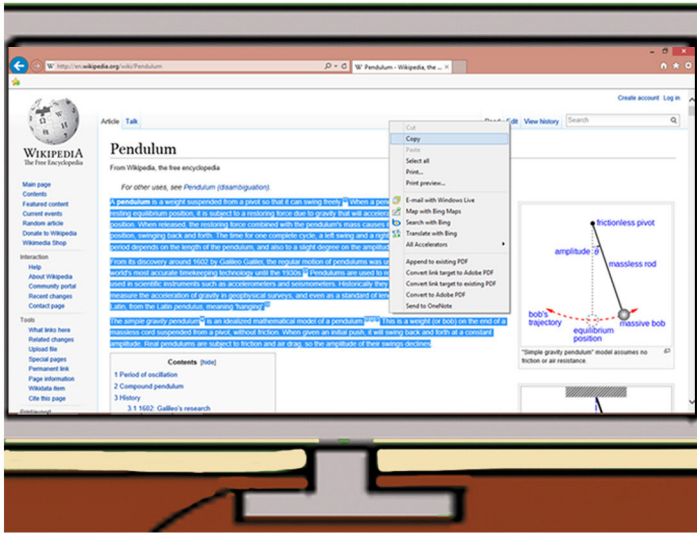

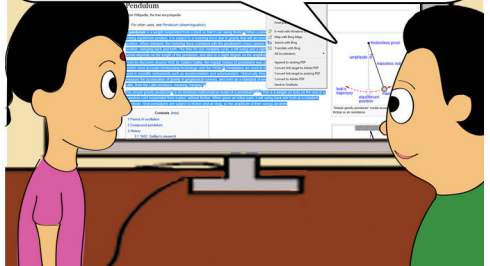

Wow!! Thankyou for the Information

Ok now!! Lets search about pendulum

Got it! Lets copy this content about pendulum..

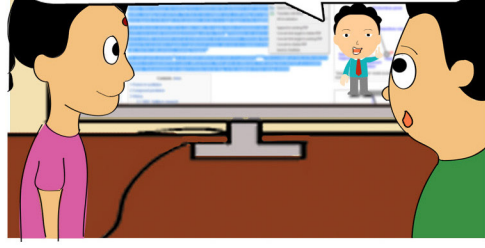

Wait a moment! Do you know what is a copyright??

Copyright??

Now, You have searched content & tried to copy it. Everything in Internet is owned by someone

Oh!!Now I feel very bad, Its more like stealing..

Yes..you are right. So, even when they put it on Internet, it belongs to them.Sometimes the owner attaches a note to their working saying mention the credits..

Now, I will be use copyrighted content and mention the credits to the creator .
